## PROJECTS & EXPERIENCE

### Sleep Data Exploration

August 2022

Gathered data (.csv files) surrounding the sleep habits of college students during the 2022 Summer semester and explored theories of this dataset by using Python's Pandas library to manipulate, analyze, visualize and then further organize this research into a written formal report supplemented with tables and graphs.

**Developer Portfolio:** <https://bandersnatchboy.github.io>

May 2021

Personal project to further develop my ability to build responsive and user optimized webpages.

**Technical knowledge gained from experience:** HTML5, CSS3, GIT, JavaScript, Bootstrap 4

### Restaurant Website

April 2021 – May 2021

Built this website under the web development mentorship of professor Chaikin from the Whiting School of Engineering and his elaborate course on techniques surrounding responsive design, Cross-Origin resource sharing, dependency injections and data binding HTML elements with JS.
